DESCRIPTIVE TITLE OF PROJECT: “TAKE A KID FISHING DAY” 2014							
PROJECT SUMMARY: CICA members will offer their Boats, time and expertise to be able to take kids fishing who may not have the chance to do this type of sport. They give up their ½ day of charters to open it up for them for the opportunity to experience the fun and sport of fishing. Sharing our knowledge of fishing, boat safety, conservation, and navigation. The scope is to that the younger generation will become experienced anglers through our giving of time and knowledge. Introduce them to the VA youth angler program sponsored by the VMRC. In 2014 we plan on taking approximately 35 kids along with chaperones for a ½ day of fishing. We are reaching out through the Chincoteague Elementary School, PTA and advertising in the local paper for participants and chaperones.							
EXPECTED BENEFITS: We hope to bring our future generation of youth to the sport of fishing so they can enjoy the outdoors and have and appreciation of the resources right in their back yard instead of being trapped in front of a the TV, computer or XBOX playing games. We bring to them our expertise of the experience of being operators of our boats. Being able to actually catch fish and enjoy the time with friends. Also for them to understand the charter business and how we adhere to the rules and regulations we have to abide by in boating, safety, and conservation efforts for each type of fish we catch.
